COPTIC
SCRIPTORIUM

Learning and Teaching Coptic

1. Introduction
2. Reading Coptic Texts with and without translations, linguistic features visible
3. Advanced features of the Coptic Dictionary Online
4. Using Natural Language Processing to analyze Coptic text
5. Searching the Database to Help Identify Puzzling Words or Word Combinations
6. Additional Resources

1. Introduction

copticscriptorium.org

Open source, open access
Interdisciplinary research platform
for Coptic language and literature

- NLP tools
- Digital texts, digital editions
- Searchable database of text and annotations
- Collaborative annotation environment
- coptic-dictionary.org with German partners
- Linked data

Coptic Scriptorium Team

Co-PI

Amir Zeldes, Assoc. Prof. of Linguistics
Georgetown University
amir.zeldes@georgetown.edu

Full team at <https://copticcriptorium.org/about>

Funding

Current: NEH Preservation and Access Humanities Collections Reference and Resources Program (PW-290519-23)

Additionally: NEH Digital Humanities Advancement Grant (HAA-261271-18), NEH Division of Preservation and Access (PW-51672-14); NEH Office of Digital Humanities (HD-51907; HG-229371); DFG; BMBF (German Federal Ministry of Education and Research); Georgetown University; University of Oklahoma; University of the Pacific; Humboldt University; Canisius College

2. Practice Reading Coptic

6. Additional Resources

<https://copticSCRIPTORIUM.org/documentation/>

Documentation / Quick Start

We do have a **wiki for detailed documentation**, but if you want a quick start, here are the most commonly used resources.

Getting started

- **Frequently Asked Questions**
- **Read and browse Coptic texts** in our corpora, including many with aligned translations
- Lookup a word in an **online Coptic Dictionary**, developed with our German partners in the KELLIA project
- ANNIS, our search and visualization platform
 - **ANNIS tutorial and cheat sheet** ←
 - **More sample queries for the ANNIS** ←
 - A **video of a tutorial** for using ANNIS during our March 2015 workshop
- For an introduction to some of our search functions, see the **recent post** on the Digital Orientalist. ←

Thank you!
We appreciate your
feedback!
